

UNITED ARAB EMIRATES
MINISTRY OF HEALTH & PREVENTION

The Connected Medical System Personalised Around You

With the mission of Ministry of Health and Prevention to enhance community health by providing comprehensive, innovative, and fair healthcare services as per international standards, The Ministry continues to put the patient at the center of care through innovation, teamwork and more importantly respect leading to healthier patients and happier communities.

Launched in 2008 Wareed is an innovative solution designed to help improve health, care and quality of life for the UAE nation. Inspired by the human venous system, Wareed is based on a sophisticated and proven technology platform that provides doctors, nurses, other healthcare providers and patients access to vital information improving both the efficiency and quality of their medical care.

Over the coming months, we will be telling you more about Wareed and how this advanced technology is supporting the UAE's vision to be the healthiest and happiest nation globally.
